I will never break
Don't, be the one, who gives up this, unreality

Light, in the dark, is forgiveness,
the opposite of hate
The pain tears me apart

Like tears touching ground

VANHEIM

According to the legend

*Something out of the ordinary will
happen that will change the future to come
The ruler of the sea from underneath,
he climbs up to collect his weapons of choice
It's a new landmark that will become
a guideline for generations*

*It's the gathering against the beast,
and the steel he has chosen has a name,
it is simply — Northern Steel*
